Program

Career and Technology Foundations (CTF) is a new and innovative optional curriculum for grades 5-9 in Alberta.

Are you a teacher who will be teaching CTF for the first time this year? This session will support teachers in understanding what CTF is all about, and how it can be implemented in classrooms.

In this session, you will:

- Gain familiarity with the CTF Program of Study
- Receive Alberta Education updates related to CTF Implementation
- Learn about supports for planning and assessing CTF challenges

This learning opportunity is being offered through curriculum implementation funding from Alberta Education.

Presenters

Krystal Abrahamowicz

is currently the Coordinator of Inclusion for Foundations for the Future Charter Academy. With extensive background and training in gifted education, and many years of experience supporting diverse learners, Krystal is a passionate believer that every student can experience success at school. Krystal has extensive experience with adult professional learning, serving as the Executive Director for the Calgary Regional Consortium (CRC) from 2019 - 2022. During her

time with the CRC, she authored the *Supporting High School Completion a Tool Kit for Success* resource and had a key role in developing the Implementation and Planning Tool in the Government of Alberta Resource *Working Together to Support Mental Health in Alberta Schools*, as well as the ARPDC *Weaving Ways* resource which supports teachers in including Indigenous knowledge systems in their practice.
