Program

TARGET AUDIENCE: ALL K-12 EDUCATORS, LITERACY LEADERS AND ELL SPECIALISTS ARE ENCOURAGED TO ATTEND

Vocabulary knowledge is essential for all student's reading ability, comprehension, content knowledge, and familiarity with academic discourse. This session is intended to introduce educators through research and some practical steps towards designing and implementing direct vocabulary instruction in classrooms.

*We highly recommend that you also register for Adam Brownings' session on Nov. 9, 2017 entitled **High-Yield Vocabulary Activities***

This workshop is a great follow-up to Why Vocabulary? Because its primary focus is on high-yield activities to implement in your classroom.

This learning opportunity is being offered through curriculum implementation funding from Alberta Education.

Presenters

Adam Browning

is a Director of Learning with Palliser Regional Schools and is a doctoral student at the University of Calgary studying in the faculty of languages and literacy. His interests and areas of research are primarily in English Language Acquisition, academic literacy, and vocabulary acquisition.
