Program

Working with a team member from the Provincial Achievement Testing Program, Provincial Assessment Sector, participants will have the opportunity to review pertinent documents that support the Alberta Grade 6 and Grade 9 English Language Arts Provincial Achievement Tests.

As well, participants will have the opportunity to review representative samples of student work that demonstrate the standards related to the scoring guides and the exemplars. Samples of student writing will be assessed and an opportunity will be provided for reflection and exchange of best practices in the field.

This learning opportunity is being offered through curriculum implementation funding from Alberta Education.
