February 22, 2021: 12:00 PM - 12:00 AM

Venue:

Online

About the Session

AUDIENCE: K-12 EDUCATORS AND EDUCATIONAL STAFF ARE ENCOURAGED TO ATTEND.

Calgary Regional Consortium (CRC), on behalf of Alberta Regional Professional Development Consortium (ARPDC) is pleased to announce an interactive e-workshop entitled *Literacy & Numeracy Progressions*.

Designed to build awareness and understanding for educational staff related to the new literacy and numeracy progressions, this e-workshop is accessible 24-7 to accommodate the busy schedule of educators and educational staff.

Join this self-paced learning opportunity to:

- expand methods and deepen understanding of literacy and numeracy progressions across grade levels and subject areas.
- participate in on-line discussion groups related to integrating the new literacy and numeracy progressions across the curriculum. Current practices and strategies will be shared.

Completion of the required components will take approximately 10 to 12 hours in total. Alternatively, participants can also choose to explore the e-workshop materials at their own pace, to suit their own personal needs.

About the Presenter(s)

Kim Tackaberry is a Designer of Professional Learning with the Calgary Regional Consortium. Her areas of focus include literacy and inclusive education. Kim's teaching career spans over 28 years, ten as a classroom teacher at Foothills Academy Society, a school specializing in children with Learning Disabilities and ADHD. Kim has designed several e-learning courses for teachers, titles include Learning Disabilities and Introduction to Literacy and Numeracy Progressions. She is passionate about coaching educators, particularly when they are focused on supporting struggling readers. Apart from the Founder, Dr. Rick Freeze, she is the sole Precision Reading presenter in North America.

Registration Notes:

Participants will receive an email invitation with login instructions from PowerSchool Learning on the date the course opens.

This self-paced course will be open from February 22nd - March 26th 2021. Sorry, no extensions will be provided.

Estimated time of completion of the full eCourse is approximately 10-12 hours. Total completion time will vary for individuals dependent on level of participation within the course.
