Program

Target Audience: K – 6 Elementary Generalist & Specialist Physical Education & Wellness Teachers

Do you enjoy opportunities to gather with teachers to talk about great strategies to teach PE & Wellness?

Are you eager to unpack and talk about implementing the K-6 Physical Education & Wellness curriculum?

Do you want to grow your network of active, like-minded go-getters?

This is for you! This series will be responsive and designed based on the needs and ideas of the group. Considerations will include designing learning plans to align with the PE & Wellness curriculum, discussing pedagogy in practice, drawing on the experiences and expertise of our community members, and of course, we will have some fun while we are at it!

This series is designed for all teachers who are juggling schedules, getting up early and staying up late! We will host after-school synchronous online sessions to begin and end our series while offering asynchronous resources and ideas in the 3 weeks in between. The best part of collaborative communities are the discussions and ideas that are shared within, so this flexible model is sure to be the right fit for all who hope to join us.

Presenters

Cheryl Babin

M.Ed., is a Designer of Professional Learning with the Calgary Regional Consortium. With experience in public, international and independent schools, Cheryl has held many roles including classroom and lead teacher, experiential learning coordinator, instructional coach, IB workshop leader and university sessional instructor. Cheryl currently designs and facilitates professional learning opportunities for teachers and leaders in the region. Specific areas of interest and experience include making learning meaningful through critical thinking, conceptual understanding, student engaged assessment, and the development of international-mindedness and global perspectives.

Wanda Dechant

is a Designer of Professional Learning with the Calgary Regional Consortium. Her role includes supporting teachers, E.A.s, school admin, learning coaches and parents in K-12 Math and Numeracy. Wanda began teaching math and science in 2000, her teaching experience extends from grades 7 – 12. For the past 7 years Wanda's work has included a major focus on K-6 Mathematics. Three critical aspects of learning that Wanda embeds into her work include:

- Student and teacher self-confidence in math
 - Students and teachers making their thinking visible to themselves and to each other
 - Students and teachers as mathematicians – let's do the math
-

Registration Notes

This session will be recorded and available to registered participants for 30 days.

All sessions are mountain time.
