Responsive Planning – Connecting Students to Outcomes

This 30 Minute Bite-Sized Boost takes us into the idea of Responsive Planning, which combines designing meaningful learning led by our most important driver: **what students need**. Start small, or jump right in! You'll walk away with your own copy of the documents and ideas you need to make instructional moves that respond to learning. Join us on zoom while you eat your lunch, or grab the recording for viewing during a time that works for you.
